TEAM ROLES AND RESPONSIBILITIES

Project: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Team Member	Role	Responsibilities
Deebika J L	Project Leader	Leads the project and coordinates the team; oversees the Flow Designer implementation for standard laptop orders; assigns tasks and reviews progress; coordinates integration of all project phases; validates the final workflow and ensures the project submission is completed.
Derish J S	Team Member	Supports requirement analysis and workflow design; helps define the standard laptop ordering process and approval requirements; assists with Flow Designer configuration and documentation; supports testing and correction of workflow issues.
Hari S	Team Member	Supports development and configuration activities; assists in creating and testing Flow Designer actions, conditions, approvals, and notifications; records configuration details and test results; helps verify that standard laptop orders move through the intended process.
Akin C V	Team Member	Supports project testing and documentation; prepares test scenarios and captures evidence of successful workflow execution; assists with user documentation and final report preparation; supports the team in demonstration and final review.

Project objective: Automate standard laptop order processing using ServiceNow Flow Designer to make procurement more consistent, efficient, and easier to track.
